

COMPANION ANIMAL REHABILITATION

At PAWS, our Animal Rehabilitation Program aims to restore normal movement, muscle mass and function, and to reduce pain, swelling and inflammation. Our rehabilitation department also offers conditioning, pain management and weight loss services. Our rehabilitation program can help increase blood circulation, strengthen and stimulate muscles, restore flexibility and improve general well-being.

- Underwater Treadmill Therapy
- Land Treadmill Therapy
- Pulsed Signal Therapy/Assisi
- Strengthening Exercise Program
- E-Stimulation
- Therapeutic Ultrasound
- Low-Level Laser Therapy
- Acupuncture/Aquapuncture
- Massage, Trigger Point Therapy
- Balance and proprioception re-training
- Heat and Ice Treatment
- Home Exercise Programs designed for your pet's specific needs

Welcome to PAWS

INTEGRATIVE VETERINARY CENTER
Providing complete & exceptional care for your pet by combining the art and science of Eastern & Western approaches.

PAWS wants to ensure your experience at our facility is the best it can be. Our staff offers you the highest quality, best trained veterinarians and support staff. Our Chinese Medicine/Integrative Practitioners and our highly trained veterinarians offer excellent, compassionate care for you and your pet. Our Certified Veterinary Technicians and our Veterinary Assistants will care for your pet with compassion and expertise. You will enjoy meeting our wonderful Client Service Representatives and sharing the love of your pets.
