Healthy Kitten Preventative Program

Overview

Our Healthy Kitten Prevention Program gives your kitten the care they need for a strong, healthy start and gives you peace of mind, too.

This complete program guides you through:

- ✓ Pet Insurance
- ✓ Nutrition & Diet
- ✓ Parasite Prevention
- ✓ Socializing & Enrichment
- ✓ Vaccines & Boosters
- ✓ Spay/Neuter guidance

It also includes integrative options such as vaccine titers and hormone replacement.

Information

- Payment is due at the first exam
- Program expires 6 months after purchase
- Samples are due within 30 days of the original visit
- Sick, illness, or injury appointments do not apply
- Annual parasite prevention is not included
- Vaccines may be split at the veterinarian's discretion. If vaccines are split, technician appointments may be scheduled 1-2 weeks later for best immune response & protection

Insure your kitten's health with Pet Insurance

Pet insurance can provide coverage for preventative or wellness care, but it is best utilized to help pet owners deal with the cost of major medical or emergency situations. It can help provide pet owners with peace of mind and allow for health care decisions to be made in the best interest of their pet and not driven by finances.
