

A HEALTHY START FOR A HAPPY LIFE

Our Healthy Puppy Preventative Program includes everything your puppy needs for a strong, healthy start — and peace of mind for you.

Your puppy's complete guide:

- ✓ Pet Insurance
- ✓ Nutrition & Diet
- ✓ Heartworm, Flea & Tick Prevention
- ✓ GI Parasite Protection
- ✓ Training & Socialization
- ✓ Vaccines & Boosters
- ✓ Spay/Neuter Guidance

Plus integrative options like vaccine titers and hormone replacement.

PREVENT TODAY. PROTECT TOMORROW.
WE'RE HERE FOR EVERY TAIL WAG.

- DA2PP + Lepto Vaccine \$60 value

OR

Discounted KSU Vaccine Titer - \$75
(Normally \$100)

At this visit, we recommend testing vaccine titer levels for distemper, parvovirus, and adenovirus type 2 to see if an additional DA2PP vaccine is needed.

If results show insufficient titer levels, then we will boost the DA2PP vaccine at no charge to you.

ONE PLAN. FIVE VISITS. A LIFETIME
OF HEALTH AND HAPPINESS.

Important Information:

- *Payment is due at the first visit
- *Program expires 6 months after purchase
- *Samples are due within 30 days of the original visit
- *Sick/illness or injury visits do not apply
- *Annual heartworm prevention is not included

Insure your puppy's health with Pet Insurance

Pet insurance can provide coverage for preventative or wellness care, but it is best utilized to help pet owners deal with the cost of major medical or emergency situations. It can help provide pet owners with peace of mind and allow for health care decisions to be made in the best interest of their pet and not driven by finances.
